-

1. Getting Started

1.1 Creating an Account

1. Navigate to the Maintenance Tasker website
2. Click **"Get Started"** or **"Register"**
3. Fill in your company information:
 - Company name
 - Your email address
 - Your name
 - Password
4. Click **"Create Account"**
5. You'll start with a 14-day free trial

1.2 Logging In

1. Go to the login page
2. Enter your email and password
3. Click "**Sign In**"
4. You'll be directed to your dashboard

1.3 User Roles

Role	Permissions
Company Admin	Full access to all features
Property Manager	Manage assigned properties, create tickets, view reports
Maintenance Staff	Access My Work, complete tasks, track time
Vendor	View assigned work orders, update status
Read Only	View-only access to all data

2. Dashboard Overview

The Dashboard is your command center for property management.

2.1 Quick Stats

At the top of the dashboard, you'll see:

- **Total Properties** - Number of properties you manage
- **Open Tickets** - Maintenance requests awaiting attention
- **Active Tasks** - Tasks currently in progress
- **Upcoming Inspections** - Scheduled property inspections

2.2 Activity Feed

The activity feed shows recent actions:

- New tickets created
- Tasks completed
- Status changes
- Comments added

2.3 Property Health Overview

Color-coded property status:

- **Green (Healthy)** - No issues
 - **Yellow (Attention Needed)** - Minor issues pending
 - **Red (Critical)** - Urgent issues require immediate attention
-

3. Properties Management

3.1 Viewing Properties

1. Click "**Properties**" in the sidebar
2. See a list of all your properties with:
 - Property name and address
 - Type (Single Family, Multi-Family, Commercial, etc.)
 - Status (Healthy, Attention Needed, Critical)
 - Risk score (0-100)

3.2 Adding a Property

1. Click "+ **Add Property**" button
2. Fill in the property details:
 - Name
 - Address, City, State, ZIP
 - Property Type
 - Number of Units
 - Square Footage
 - Year Built
3. Click "**Create Property**"

3.3 Property Details

Click on any property to see:

- **Overview Tab** - Basic information and status
- **Tickets** - All maintenance requests for this property
- **Leases** - Current and past leases
- **Equipment** - Installed equipment with service schedules
- **Notes** - Four types of notes:
 - Property Notes
 - Tenant Notes
 - Building Notes
 - Owner Notes
- **Inspections** - Scheduled and completed inspections
- **Activity** - Timeline of all actions

3.4 Property Notes

Notes help you track important information:

1. Go to a property's detail page
2. Click the "**Notes**" tab
3. Select note type (Property, Tenant, Building, or Owner)
4. Click "**Add Note**"

5. Enter your note content
 6. Choose if it's internal only
 7. Click "**Save**"
-

4. Assets & Equipment

4.1 What are Assets?

Assets are equipment, machinery, or items that require regular maintenance:

- HVAC systems
- Plumbing fixtures
- Electrical systems
- Appliances
- Safety equipment
- Vehicles

4.2 Adding an Asset

1. Click "**Assets**" in the sidebar
2. Click "**+ Add Asset**"
3. Fill in:
 - Name and Description
 - Category (HVAC, Plumbing, Electrical, etc.)
 - Location
 - Manufacturer, Model, Serial Number
 - Purchase Date and Warranty Expiry
 - Linked Property (optional)
4. Click "**Create Asset**"

4.3 Asset Status

- **Operational** - Working normally
- **Needs Maintenance** - Maintenance due or minor issues
- **Out of Service** - Not currently functional
- **Retired** - No longer in use

4.4 Asset Detail View

Click any asset to see:

- Current status and information
 - Service history
 - Active maintenance tasks
 - QR code for quick access
-

5. Maintenance Tasks

5.1 Task Overview

Tasks are scheduled maintenance activities linked to assets.

5.2 Creating a Task

1. Click "**Tasks**" in the sidebar
2. Click "+ **New Task**"
3. Fill in:
 - Title and Description
 - Select Asset
 - Priority (Low, Medium, High, Critical)
 - Assignee (optional)
 - Due Date
4. For recurring tasks:
 - Check "Recurring"
 - Select frequency (Daily, Weekly, Monthly, etc.)
5. Click "**Create Task**"

5.3 Task Lifecycle

Tasks progress through these stages:

OPEN → IN PROGRESS → UNDER REVIEW → COMPLETED

1. **Open** - Task created, not started
2. **In Progress** - Technician is working on it
3. **Under Review** - Work done, pending approval
4. **Completed** - Task finished and approved

5.4 Working on Tasks

1. Find your task in the task list or My Work
2. Click "**Start**" to begin (changes to In Progress)
3. Add notes and photos as you work
4. Upload before/after photos
5. Click "**Done**" when finished (changes to Under Review)
6. Supervisor reviews and marks Complete

5.5 Photo Documentation

Tasks support photo evidence:

- **Before Photo** - Document the initial condition
- **After Photo** - Show completed work

To add photos:

1. Open the task
 2. Click **"Upload Photo"**
 3. Select the photo type
 4. Choose your image file
-

6. Tickets & Work Orders

6.1 What are Tickets?

Tickets are maintenance requests, often from tenants or property managers.

6.2 Creating a Ticket

1. Click **"Tickets"** in the sidebar
2. Click **" + New Ticket "**
3. Fill in:
 - Title and Description
 - Property
 - Category (Plumbing, Electrical, HVAC, etc.)
 - Priority (Low, Medium, High, Urgent)
 - Optional: Tenant, Vendor, Cost Estimate
4. Click **"Create Ticket"**

6.3 AI Smart Triage

When enabled, tickets are automatically analyzed by AI to:

- Suggest appropriate priority
- Recommend category
- Provide suggested fixes
- Estimate resolution time

6.4 Ticket Status Flow

NEW → IN PROGRESS → WAITING ON TENANT/VENDOR → COMPLETED

6.5 Ticket Comments

Add comments to tickets for communication:

1. Open a ticket
2. Scroll to Comments section
3. Type your message

4. Check "Internal" if only for staff
 5. Click "**Add Comment**"
-

7. My Work (Technician Dashboard)

7.1 Overview

The My Work page is designed for maintenance technicians to manage their daily work.

7.2 Time Clock

At the top of the page:

- **Clock In** - Start your workday
- **Clock Out** - End your workday
- Displays current duration worked

7.3 Quick Stats

- Open Tasks assigned to you
- In Progress tasks
- Open Tickets assigned to you
- Tasks Due Today

7.4 Tasks Tab

View all tasks assigned to you:

- See priority and status badges
- Click "**Start**" to begin a task
- Click "**Done**" when finished
- Click task title for full details

7.5 Tickets Tab

View tickets assigned to you:

- See priority, status, and category
 - View property location
 - Click to see full ticket details
-

8. Team Management & Analytics

8.1 Overview Tab

See team-wide statistics:

- Total tasks completed
- Total hours worked
- Average tasks per technician
- Team efficiency metrics

8.2 Technicians Tab

View all maintenance staff:

- Name and contact info
- Skills and certifications
- Current workload
- Hourly rate (if tracked)

To edit a technician:

1. Click on their name
2. Update skills, certifications, or hourly rate
3. Save changes

8.3 Leaderboard

View top performers:

- Tasks completed
- Hours worked
- Efficiency rating

8.4 Workload Distribution

Visual chart showing:

- Tasks per technician
- Workload balance across team

8.5 Skills Coverage

See what skills your team has:

- List of all skills in your team
 - Number of technicians per skill
 - Identify skill gaps
-

9. Inventory Management

9.1 Parts Inventory

Track parts, supplies, and materials used in maintenance.

9.2 Adding Inventory Items

1. Click **"Inventory"** in the sidebar
2. Click **" + Add Item "**
3. Fill in:
 - Name and Description
 - SKU (optional)
 - Category (Plumbing, Electrical, Hardware, etc.)
 - Current Quantity
 - Minimum Quantity (for alerts)
 - Unit Cost
 - Storage Location
 - Supplier Information
4. Click **"Create Item"**

9.3 Stock Management

Adjusting Stock:

1. Click on an inventory item
2. Click **"Adjust Stock"**
3. Select transaction type:
 - Restock (add inventory)
 - Used (subtract for job)
 - Adjustment (manual correction)
 - Returned
 - Damaged
4. Enter quantity and notes
5. Click **"Submit"**

9.4 Low Stock Alerts

Items below their minimum quantity appear with warning badges.

9.5 Using Parts on Tasks

When completing a task:

1. Open the task
2. Click **"Use Parts"**

3. Select inventory items used
 4. Enter quantities
 5. Stock is automatically deducted
-

10. Turnovers

10.1 What are Turnovers?

Turnovers track the make-ready process when a tenant moves out and a new tenant moves in.

10.2 Creating a Turnover

1. Click "**Turnovers**" in the sidebar
2. Click "+ **New Turnover**"
3. Fill in:
 - Property
 - Unit number (for multi-unit)
 - Move-out date
 - Target ready date
 - Move-in date (if known)
4. Click "**Create**"

10.3 Turnover Status

SCHEDULED → MOVE OUT COMPLETE → IN PROGRESS → FINAL INSPECTION → READY → OCCUPIED

10.4 Turnover Tasks

Break down work into tasks:

- Cleaning
- Painting
- Repairs
- Inspection
- Appliances
- Flooring
- Locks
- Landscaping

To add a task:

1. Open the turnover
2. Click "+ **Add Task**"
3. Fill in details
4. Assign to staff or vendor

10.5 Cost Tracking

Track turnover costs:

- Estimated cost per task
 - Actual cost when completed
 - Total turnover cost summary
-

11. Capital Expenditures (CapEx)

11.1 What is CapEx?

Capital expenditures are major property improvements or replacements:

- Roof replacement
- HVAC system upgrade
- Major renovations
- New appliances

11.2 Creating a CapEx Item

1. Click "**CapEx**" in the sidebar
2. Click "+ **New CapEx**"
3. Fill in:
 - Title and Description
 - Category (Roof, HVAC, Plumbing, etc.)
 - Property
 - Budget Year
 - Estimated Cost
 - Depreciation Years (optional)
4. Click "**Create**"

11.3 CapEx Status Flow

PROPOSED → PENDING APPROVAL → APPROVED → IN PROGRESS → COMPLETED

11.4 Approval Process

1. Create CapEx as PROPOSED
2. Submit for approval (PENDING APPROVAL)
3. Administrator reviews and approves
4. Work begins (IN PROGRESS)
5. Mark complete when finished

11.5 Budget Tracking

View CapEx by budget year:

- Total budgeted amount
 - Approved amount
 - Spent amount
 - Remaining budget
-

12. Leases & Tenants

12.1 Managing Leases

1. Click "**Leases**" in the sidebar
2. View all leases with:
 - Tenant name
 - Property
 - Rent amount
 - Start/End dates
 - Status

12.2 Creating a Lease

1. Click "+ **New Lease**"
2. Select Property and Tenant (or create new tenant)
3. Enter:
 - Start and End dates
 - Rent amount
 - Security deposit
 - Special terms (optional)
4. Click "**Create Lease**"

12.3 Lease Status

- **Pending** - Not yet started
- **Active** - Currently in effect
- **Expired** - Past end date
- **Terminated** - Ended early

12.4 Renewal Probability

The system tracks renewal probability (0-100%) to help you plan for potential turnovers.

13. Vendors

13.1 Vendor Management

Track contractors and service providers.

13.2 Adding a Vendor

1. Click "**Vendors**" in the sidebar
2. Click "+ **Add Vendor**"
3. Fill in:
 - Company name
 - Contact email and phone
 - Specialties (Plumbing, HVAC, etc.)
 - License number
 - Insurance expiry date
4. Click "**Create Vendor**"

13.3 Vendor Ratings

Rate vendors after completing jobs:

1. Open vendor profile
2. Click "**Rate**"
3. Select star rating (1-5)
4. Rating updates automatically

13.4 Assigning Vendors to Tickets

When creating or editing a ticket:

1. Select vendor from dropdown
 2. Vendor receives notification
 3. Track vendor response time
-

14. Inspections

14.1 Inspection Types

- **City** - Municipal inspections
- **Fire** - Fire safety inspections
- **Safety** - General safety checks
- **Routine** - Regular property inspections
- **Move-In** - New tenant inspections
- **Move-Out** - Departing tenant inspections

14.2 Scheduling an Inspection

1. Click **"Inspections"** in the sidebar
2. Click **" + Schedule Inspection "**
3. Select:
 - Property
 - Inspection type
 - Scheduled date
 - Notes
4. Click **"Schedule"**

14.3 Completing an Inspection

1. Find the inspection
 2. Click to open details
 3. Add:
 - Passed items
 - Failed items
 - Notes
 4. Change status to Completed or Failed
 5. Save
-

15. Settings & Administration

15.1 Company Settings

Access via **"Settings"** in the sidebar.

15.2 User Management

Adding a User:

1. Go to Settings
2. Click **"Users"** or **"Team"**
3. Click **" + Add User "**
4. Enter:
 - Email
 - First and Last name
 - Role
 - Phone (optional)
5. Click **"Create"**

User receives an invitation email to set their password.

Editing Permissions:

1. Click on a user
2. Select **"Permissions"**
3. Toggle individual permissions

4. Save changes

15.3 Technician Setup

For maintenance staff:

1. Create user with **Maintenance Staff** role
 2. Edit their profile to add:
 - Skills (Plumbing, HVAC, Electrical, etc.)
 - Certifications with expiry dates
 - Hourly rate
 - Max daily tasks
-

16. Tenant Portal

16.1 Overview

The Tenant Portal allows tenants to submit maintenance requests without logging in.

16.2 Submitting a Request (Tenant View)

1. Go to /tenant page
2. Enter email address to look up lease
3. Select property/unit
4. Fill in:
 - Issue title
 - Description
 - Category
 - Urgency
5. Submit request

16.3 Managing Tenant Requests (Staff View)

Tenant requests appear as new tickets in the Tickets section with the tenant linked.

17. Billing & Subscriptions

17.1 Plans

Plan	Price	Properties	Users	Features
Starter	\$49/mo	10	3	Basic features
Professional	\$149/mo	50	10	Advanced analytics

Enterprise \$349/mo Unlimited Unlimited Custom integrations

17.2 Managing Subscription

1. Go to **Settings**
2. Click "**Billing**"
3. View current plan and usage
4. Click "**Manage Subscription**" for Stripe portal

17.3 Trial Period

- 14-day free trial on signup
 - Limited to: 3 properties, 2 users, 25 tasks/month
 - Upgrade anytime to continue using all features
-

Support & Help

Getting Help

- **Documentation:** This user manual
- **Support Email:** Contact your administrator
- **In-App:** Click help icon in navigation

Reporting Issues

If you encounter a bug:

1. Note what you were doing
 2. Screenshot any error messages
 3. Report to your administrator or support
-

Keyboard Shortcuts

Shortcut	Action
Ctrl + K	Quick search
Esc	Close modal/dialog
